

Environmental Policy

Fire Safe Global Ltd recognizes that its business activities interact with the environment and that the organization has a responsibility to help protect the environment wherever it has an opportunity to do so.

As such the Directors of Fire Safe Global Ltd are committed to the following:

- continually improving our environmental management system to enhance environmental performance;
- preventing pollution;
- complying with all relevant legal, customer, and other third-party requirements;
- establishing measurable environmental and business objectives that are consistent with the context and strategic direction of the organization, and addressing risks and opportunities associated with them;
- achieving objectives to help minimize its environmental impact; and
- adopting best practices applicable to its activities wherever practicable.

To achieve these commitments, Fire Safe Global Ltd maintains an effective and efficient Business Management System that is based on the requirements of ISO 14001:2015, and sets and maintains objectives and a supporting program of work that is focused on achieving the organization's commitments and on protection of the environment, including prevention of pollution.

The implementation of this policy is fundamental to the success of the organization's business and must be supported by all employees as an integral part of their daily work.

This policy has been approved by the Managing Director of Fire Safe Global Ltd and is reviewed at least annually to ensure it remains current and effective. We also communicate this policy to all team members (for example, through inductions or staff meetings) so everyone is aware. This policy is also communicated to relevant contractors and made available to interested parties.

Signed:

Steve Lakin - 20/10/2026
